

**Wi-Fi Internet access on smartphones is now available for employees!** It is incredibly easy to use. Simply **connect to OVSD-Access** and follow these instructions. (Please note: only smartphones are allowed access at this time.)

### Step ①

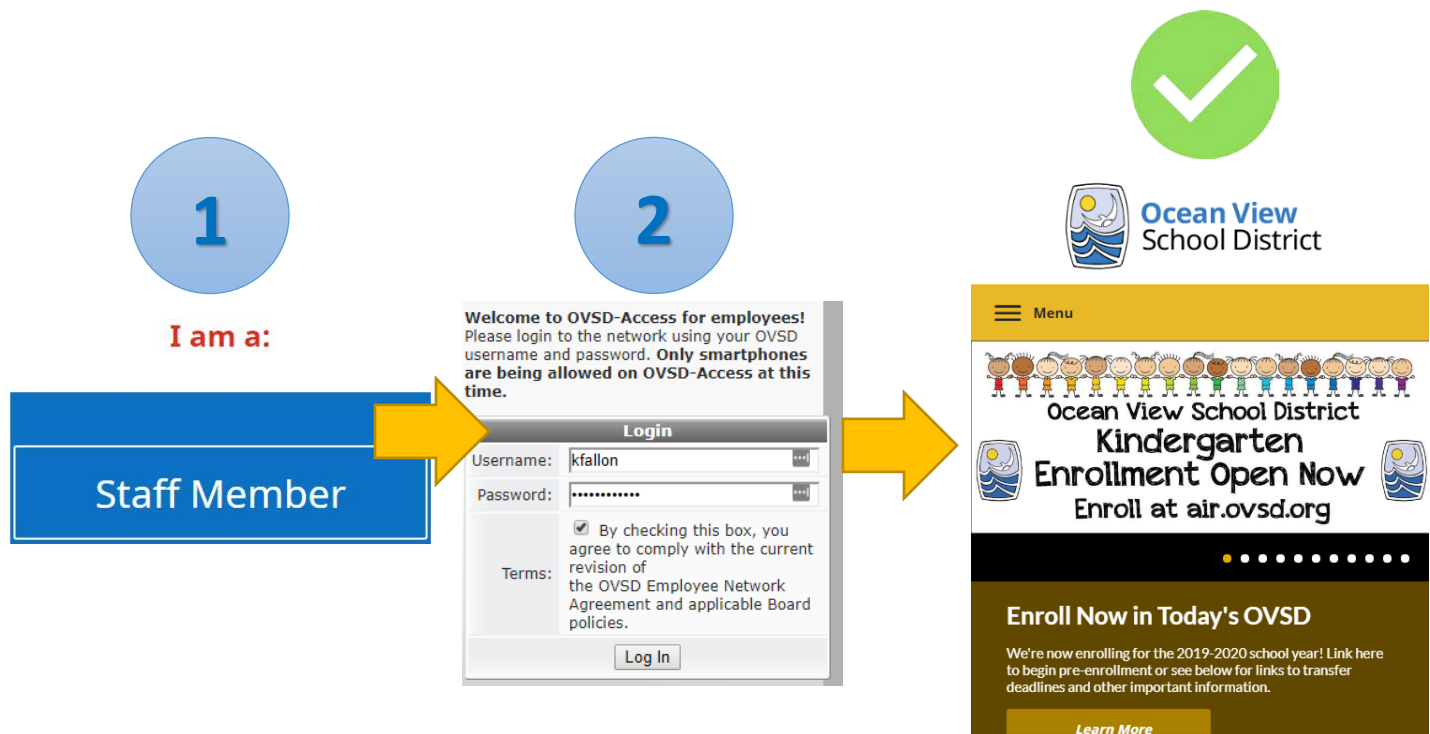

Scroll down and click **Staff Member**.

### Step ②

Type your OVSD username and password (**no @ovsd.org**).

### Step ✓

**That's it!**

Please note the following:

- You'll need to re-enter your OVSD username and password every 6 months.
- **Not all devices are compatible with OVSD-Access.** IT cannot guarantee that we will be able to connect every type of smartphone or tablet to our network.
- **Employees will only be able to connect up to 2 devices at a time.** If you no longer are in possession of a device, please contact IT at x1200 to have your old device removed from our database.
- **All Internet access is monitored and associated with your username**, as if you were using your computer.
