Kindergarten Supply List - Suggested Donations

Our classrooms have specific needs and we are suggesting some donations to help us be better prepared for our year. Sending these supplies to school with your child the first week of school is appreciated! There may be a time later in the year when we need to re-stock, so if it isn't possible at the moment, there will be another time to donate in the months ahead.

The brand names have been quality tested and proven through the years by our students and teachers. Please buy the brand name if listed. Thanks so much!

The first list is for
