ANNUAL NOTIFICATION TO PARENTS/GUARDIANS/STUDENTS
2020-2021**

Dear Parent/Guardian:

As required by law (Education Code §48980), you are hereby notified of specific code sections and of the right to permit or refuse your child to engage in identified school programs provided by the Ocean View School District. Education Code §48982 requires parents to return a signed acknowledgement of being informed as required by existing statutes.

DEAR PARENT/GUARDIAN/STUDENT:

California Education Code Section 48980 requires that, at the beginning of the first semester or quarter of the regular school term, the Board of Trustees of each school district must notify parents/guardians of their rights or responsibilities under certain provisions of the Education Code. Other provisions of California and United States law also require notification of parents/guardians.

Education Code section 48982 requires that acknowledgement of this notice be signed by the parent/guardian and returned to your child’s school. Your signature on the Emergency Card/Verification Summary that you completed when registering your child online at portal.ovsd.org is an acknowledgment that you have received the notice and have been informed of your rights. This signature does not indicate that consent to participate in any particular program has been either given or withheld.

Please sign and return the Emergency Card/Verification Summary Document to your child’s school for acknowledgment of this notice.

California and United States law require certain other notices in the event that specific circumstances should arise, affecting your child’s education and attendance at school. If any such circumstances should arise, the District will provide notice as required by law.

No employer may dismiss or in any manner discriminate against an employee for taking time off from work to comply with this requirement.

STUDENT RECORDS

RIGHTS OF PARENTS/GUARDIANS (EC §49063, et seq.):

Types of Student Records: A student record is any item of information directly related to an identifiable student, other than directory information, which is maintained by the District or required to be maintained by a District employee in the performance of his/her duties, whether recorded by handwriting, print, tapes, film, microfilm or other means. Student records include a student's health record.

Responsible Officials: Your child's Principal is responsible for the maintenance of student records located at your child's school. For student records maintained at the District Office, the responsible official is the Assistant Superintendent, Educational Services.

Location of Log/Record: The law requires that a log or record be maintained for each student's record which lists all persons, agencies, or organizations requesting or receiving information from the record and the legitimate interests therefore. For records maintained at your child's school, the log is located in the Principal's office. For records maintained at the District office, the log is located in Student Services.

School Officials and Employees/Legitimate Educational Interests: School officials and employees who are authorized to review student records are school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, certificated employee, or support staff member (including, but not limited to, paraeducator, health or medical staff and school law enforcement personnel); a person serving on the school board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, educational consultant or therapist); a vendor, contractor, or other party to whom the District has outsourced institutional services or functions; an agency caseworker of a state or local child welfare agency that has legal responsibility for the care and protection of a student, other public agencies providing services to students, as well as employees of other public schools or school systems where educational programs leading to high school graduation are provided or where a District student intends to or is directed to enroll; a minor's counsel of record. Access to student records is permitted only for records that are relevant to the legitimate educational interests of the requester. Upon request, the District discloses educational records without consent to officials of another school district in which the student seeks or intends to enroll. Legitimate educational interests are described in California Education Code §49076 and in District Board Policy 5125.

Right of Access and Review/Expungement: You have an absolute right to access any and all student records related to your child, which are maintained by the District. A homeless child or youth or an unaccompanied youth who is 14 years of age or older may access his/her student records. If you wish to review records located at your child's school, please contact the Principal's office, or submit a written request that identifies the record(s) you wish to inspect. If you wish to review records located at the District office, please contact the

Assistant Superintendent, Educational Services. The Principal or District office has five (5) business days from the day of the receipt of a request to provide access to the records. Upon satisfactory completion of the rehabilitation assignment of a student whose expulsion has been suspended by the Board of Trustees, the Board may order the expungement of any or all records of the expulsion proceedings. If the Orange County Board of Education enters an order reversing the decision of the Board of Trustees to expel a student, the County Board may direct the Board of Trustees to expunge the record of the student and records of the District of any references to the expulsion action. When you submit a written revocation of consent after the initial provision of special education and related services for your child, the District is not required to amend the education records of your child to remove any reference to your child's receipt of special education and services.

Challenging the Content of Records: You have the right to challenge the content of any student record by filing a written request with the Superintendent to correct or remove any information recorded in the written records concerning your child which you allege to be any of the following: (1) inaccurate, (2) an unsubstantiated personal conclusion or inference, (3) a conclusion or inference outside the observer's area of competence, (4) not based on the personal observation of a named person with the time and place of the observation noted, (5) misleading, or (6) in violation of the privacy or other rights of the student.

Copying Costs: You may receive copies of your child's student records at a cost of \$0.20 per page.

Transfer of Records: The District is required to transfer a copy of your child's permanent student records within ten (10) school days to the school your child intends to enroll.

Complaints: You have the right to file a complaint with the United States Department of Education concerning an alleged failure by the District to comply with the provisions of the United States Family Educational Rights and Privacy Act (20 USC §1232g).

Curriculum: Each year the local Board of Education approves the list of instructional materials for the schools. This list is available on the District website, ovsd.org.

Statement or Response to Disciplinary Actions: Whenever information is included in a student record concerning any disciplinary action taken in connection with your child, you have the right to include a written statement or response concerning the disciplinary action in your child's student record.

Destruction of Student Records: The Board of Trustees of the District is required to retain indefinitely the original or an exact copy of mandatory permanent student records (Class 1 – Permanent Records) which schools have been directed to compile by California regulations; maintain for stipulated periods of time mandatory interim student records (Class 2 – Optional Records) until the information is no longer needed to provide educational services to a child and are retained until reclassified as Class 3 – Disposable Records, and then destroyed as per California regulations (5 CCR 432). Prior to

destroying student records of a child who has received special education services, the IDEA requires parental notification when the District decides that personally identifiable information is no longer needed to provide educational services to a child. Once parents/guardians have been notified that personally identifiable information is no longer needed, they have the option of requesting access to and/or copies of student records prior to destruction, and to request that student records be destroyed, unless the District determines that the information could be needed to provide educational services in the future or is needed for auditing purposes (34 CFR 300.624, 5 CCR 16026). Unless classified as permanent records, all other student records are destroyed five years after the information is no longer needed to provide educational services (5 CCR 16027).

RELEASE OF DIRECTORY INFORMATION (EC §49073): "Directory Information" means one or more of the following items: student's name, address, telephone number, email address, date of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous public or private school attended by the student. The District has determined that the following individuals, officials, or organizations may receive directory information: School-sponsored organizations (PTA/O, etc.) and any law enforcement agency to aid in crime investigation. Directory information may also be disclosed to outside organizations without your prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks; a playbill, showing your child's role in a drama production; honor roll or other recognition lists; graduation programs and sports activity sheets. However, no information may be released to a private profit-making entity other than employers, prospective employers and representatives of the news media, including, but not limited to, newspapers, magazines, and radio and television stations. No directory information regarding your child may be released if you notify the District that the information shall not be released. Please submit a written notice to the Principal of your child's school if you wish to deny access to directory information concerning your child. Release of directory information of a homeless child or youth is prohibited unless a parent or eligible student has given written consent that such information may be released.

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records maintained by the school . These rights transfer to the eligible student when he/she reaches the age of 18 or attends a school beyond the high school level.

Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.

2. The right to request that a school correct the student’s education records that the parent or eligible student believes is inaccurate or misleading.

Parents or eligible students who wish to ask the school to correct a record should write the school principal, clearly identify the part of the record they want corrected, and specify why it should be corrected. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing. After the hearing, if the school still decides not to amend the records, the parent has the right to place a statement with the records setting forth his/her view about the contested information.

3. Generally, schools must have written permission from the parent in order to release any information from a student’s education records. However, FERPA permits schools to disclose those records, without consent, to the following parties or under the following conditions:

- ♦ School officials with legitimate education interest;
- ♦ Other schools to which a student is transferring;
- ♦ Specified officials for audit or evaluation purposes; Appropriate parties in connection with financial aid to a student;
- ♦ Organizations conducting certain studies for or on behalf of the school;
- ♦ Accrediting organizations;
- ♦ To comply with a judicial order or lawfully issued subpoena;
- ♦ Appropriate officials in cases of health and safety emergencies; and
- ♦ State and local authorities, within a juvenile justice system, pursuant to specific state law

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student’s enrollment or transfer.

Schools may disclose, without consent, “directory” information such as a student’s name, address, telephone number, date of birth, email address, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous public/private school attended by the student. However, schools must inform parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. School officials must notify parents and eligible students annually of their rights under FERPA. The actual means of notification is left to the discretion of each school.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-8520

STATUTORY ATTENDANCE OPTIONS – Prepared by the California Department of Education

CHOOSING YOUR CHILD'S SCHOOL

A Summary of School Attendance Alternatives in California

California law [EC §48980(h)] requires all school boards to inform each student's parents/guardians at the beginning of the school year of the various ways in which they may choose schools for their children to attend other than the ones assigned by school districts. Students who attend schools other than those assigned by the districts are referred to as "transfer students" throughout this notification. There is a process for choosing a school within the district which the parents/guardians live (**intradistrict** transfer), and a process for selecting schools in other districts (**interdistrict** transfer). The general requirements and limitations of each process are described below.

Choosing a School Within the District in Which Parents/Guardians Live

The law (EC §35160.5(b) (1) requires the school board of each district to establish a policy that allows parents/guardians to choose the schools their children will attend, regardless of where the parents/guardians live in the district. The law limits choice within a school district as follows:

- Students who live in the attendance area of a school must be given priority to attend that school over students who do not live in the school's attendance area.
- In cases in which there are more requests to attend a school than there are openings, the selection process must be "random and unbiased," which generally means students must be selected through a lottery process rather than on a first-come, first-served basis. A district cannot use a student's academic or athletic performance as a reason to accept or reject a transfer.
- Each district must decide the number of openings at each school which can be filled by transfer students. Each district also has the authority to keep appropriate racial and ethnic balances among its schools, meaning that a district can deny a transfer request if it would upset this balance or would leave the district out of compliance with a court-ordered or voluntary desegregation program.
- A district is not required to provide transportation assistance to a student who transfers to another school in the district under these provisions.
- If a transfer is denied, a parent/guardian does not have an automatic right to appeal the decision. A district may, however, voluntarily decide to put in place a process for parents/guardians to appeal a decision.

Ocean View School District's enrollment period for those choosing a school within the District is from **February 4 - 22, 2019**. Intradistrict transfer forms are available at the school office and on the District web site at www.ovsd.org.

Choosing a School Outside the District in Which Parents/Guardians Live

Parents/guardians have the option for choosing a school outside the district in which they live.

1. Interdistrict Transfers

The law (EC §§46600 through 46607) allows two or more school boards to enter into an agreement, for a term of up to five years, for the transfer of one or more students between districts. The agreement must specify the terms and conditions for granting or denying transfers. The district in which the parent/guardian lives may issue an individual permit under the terms of the agreement, or district policy, for transfer and for the applicable period of time. The permit is valid upon endorsement by the district of proposed attendance. The law on interdistrict transfers also provides for the following:

- If either district denies a transfer request, a parent/guardian may appeal that decision to the district board of education. There are specified timelines in the law for filing an appeal and for the district board of education to make a decision.
- No district is required to provide transportation to a student who transfers into the district.

NOTICE OF ALTERNATIVE SCHOOLS

California Education Code §58501

California state law authorizes all school districts to provide for alternative schools. Section 58500 of the Education Code defines alternative school as a school or separate class group within a school which is operated in a manner designed to:

- (a) Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility, and joy.
- (b) Recognize that the best learning takes place when the student learns because of his/her desire to learn.
- (c) Maintain a learning situation maximizing student self-motivation and encouraging the student in his/her own time to follow his/her own interests. These interests may be conceived by him/her totally and independently or may result in whole or part from a presentation by his/her teachers of choices of learning projects.
- (d) Maximize the opportunity for teachers, parents, and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.
- (e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, student, or teacher is interested in further information concerning alternative schools, the county superintendent of schools, the administrative office of this district, and the principal's office in each attendance unit have copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the district to establish alternative school programs in each district.

Bullying

Bullying means any severe or pervasive physical or verbal act or conduct, including communications made in writing or means of an electronic act, directed toward one or more pupils that has or can be reasonably predicted to have the effect of one or more of the following:

- placing a reasonable pupil or pupils in fear of harm to that pupils' or those pupils' person or property.
- causing a reasonable pupil to experience a substantially detrimental effect on his or her physical or mental health
- causing a reasonable pupil to experience substantial interference with his or her academic performance
- causing a reasonable pupil to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by a school (Ed. Code 48900 (r))

Cyberbullying includes the creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Cyber-sexual bullying is the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of electronic act. A photograph or other visual recording that includes a depiction of a nude, semi-nude, or sexually explicit photograph, or other visual recording of a minor, where the minor is identifiable from the photograph, visual recording or other electronic act will fall within the definition of cyber-sexual bullying.

The Board of Trustees desires to provide safe school environments that protect students from physical and emotional harm and recognizes the harmful effects of bullying on student learning and school attendance. District employees shall establish student safety as a high priority and shall not tolerate bullying of any student.

Intervention, Reporting and Investigations

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being victimized. In addition, the Superintendent or designee shall develop means for students to report threats or incidents confidentially and anonymously.

Reports of bullying and cyberbullying shall be investigated promptly, and corrective action shall be taken when a complaint is verified. Neither reprisals nor retaliation shall occur as a result of the submission of a complaint and confidentiality is to be maintained.

Whenever possible, the site administrator completes an investigation of a bullying report within five school days of receiving notice of bullying behavior. The site administrator shall determine whether interim measures are necessary during and pending the results of the investigation.

Whenever possible, within 30 days the site administrator shall compile a written result of the investigation. This report shall be kept on file at the school site.

If the complainant is not in agreement with the findings of the school site investigation, a Bullying Complaint District Level Appeal may be submitted to the Student Services Office within ten days of receiving the investigation findings.

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion.

Administrative Regulation No. 1312.3, UNIFORM COMPLAINT PROCEDURES

Compliance Officers

The Board of Trustees designates the following compliance officers to receive and investigate complaints and ensure District compliance with law:

Assistant Superintendent, Human Resources

17200 Pinehurst Lane, Huntington Beach, California 92647

714-847-2551

The Superintendent or designee ensures that employees designated to investigate complaints are knowledgeable about the laws and programs for which they are responsible. Such employees may have access to legal counsel as determined by the Superintendent or designee.

Notifications

The Superintendent or designee shall meet the notification requirements of the Code of Regulations, Title 5, Section 4622, including the annual dissemination of District complaint procedures and information about available appeals, civil law remedies, and conditions under which a complaint may be taken directly to the California Department of Education. The Superintendent or designee shall ensure that complainants understand that they may pursue other remedies, including actions before civil courts or other public agencies.

Procedures

The following procedures shall be used to address all complaints which allege that the District has violated federal or state laws or regulations governing educational programs. Compliance officers shall maintain a record of each complaint and subsequent related actions, including all information required for compliance with 5 CCR 4632.

All parties involved in allegations shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

Step 1: Filing of Complaint

Any individual, public agency, or organization may file a written complaint of alleged noncompliance by the District.

Complaints alleging unlawful discrimination may be filed by a person who alleges that he/she personally suffered unlawful discrimination or by a person who believes that an individual or any specific class of individuals has been subjected to unlawful discrimination. The complaint must be initiated no later than six months from the date when the alleged discrimination occurred or when the complainant first obtained knowledge of the facts of the alleged discrimination.

The complaint shall be presented to the compliance officer, who shall maintain a log of complaints received, providing each with a code number and a date stamp.

If a complainant is unable to put a complaint in writing due to conditions such as illiteracy or other handicaps, District staff shall help him/her to file the complaint.

Step 2: Mediation

Within three days of receiving the complaint, the compliance officer shall informally discuss with the complainant the possibility of using mediation. If all parties agree to mediation, the compliance officer shall make all arrangements for this process.

Before initiating the mediation of a discrimination complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall precede with his/her investigation of the complaint.

The use of mediation shall not extend the District's time lines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

Step 3: Investigation of Complaint

The compliance officer is encouraged to hold an investigative meeting within ten calendar days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or his/her representative to complete the complaint orally.

The complainant and/or his/her representatives and the District's representatives shall also have an opportunity to present information relevant to the complaint. Parties to the dispute may discuss the complaint and question each other or each other's witnesses.

Step 4: Response

Within 30 calendar days of receiving the complaint, the compliance officer shall prepare and send to the complainant a written report of the District's investigation and decision, as described in Step 5 below. If the complainant is dissatisfied with the compliance officer's decision, he/she may, within five calendar days, file his/her complaint in writing with the Board of Trustees.

The Board of Trustees may consider the matter at its next regular Board of Trustees meeting or at a special Board of Trustees meeting convened in order to meet the 30 calendar day time limit within which the complaint must be answered. The Board of Trustees may decide not to hear the complaint, in which case the compliance officer's decision is final.

If the Board of Trustees hears the complaint, the compliance officer shall send the Board of Trustees' decision to the complainant within 30 calendar days of the District's initially receiving the complaint or within the time period that has been specified in written agreement with the complainant.

Step 5: Final Written Decision

The report of the District's decision shall be in writing and sent to the complainant. The report of the District's decision shall be written in English and in the language of the complainant whenever feasible or required by law. If it is not feasible to write this report in the complainant's primary language, the District will arrange a meeting at which a community member will interpret it for the complainant.

This report shall include:

1. The findings and disposition of the complaint, including corrective actions, if any.
2. The rationale for the above disposition.
3. Notice of the complainant's right to appeal the decision within 15 calendar days to the California Department of Education, and procedures to be followed for initiating such an appeal.
4. For discrimination complaints, notice that the complainant must wait until 60 calendar days have elapsed from the filing of an appeal with the California Department of Education before pursuing civil law remedies.
5. A detailed statement of all specific issues that were brought up during the investigation and the extent to which these issues were resolved.

If an employee is disciplined as a result of the complaint, this report shall simply state that effective action was taken and that the employee was informed of District expectations. The report shall not give any further information as to the nature of the disciplinary action.

Appeals to the California Department of Education

If dissatisfied with the District's decision, the complainant may appeal in writing to the California Department of Education within 15 calendar days of receiving the District's decision. For good cause, the Superintendent of Public Instruction may grant an extension for filing appeals.

When appealing to the California Department of Education, the complainant must specify the reason(s) for appealing the District's decision and must include a copy of the locally filed complaint and the District's decision.

A complainant may pursue available civil law remedies outside the District's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include but are not limited to, injunctions and restraining orders. For discrimination complaints, however, a complainant must wait until 60 calendar days have elapsed from the filing of an appeal with the California Department of Education before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the District has appropriately, and in a timely manner, apprised the complainant of his/her right to file a complaint in accordance with 5 CCR 4622.

To ensure the minimum interruption of the instructional program, the Superintendent or designee shall establish procedures which facilitate visits during regular school days. Visits during school hours should be first arranged with the teacher and principal or designee. If a conference is desired, an appointment should be set with the teacher during noninstructional time.

To ensure the safety of students and staff and avoid potential disruptions, all visitors shall register immediately upon entering any school building or grounds when school is in session.

For purposes of school safety and security, the principal or designee may design a visible means of identification for visitors while on school premises.

No electronic listening or recording device may be used by students or visitors in a classroom without the teacher and principal's permission.

Policy Revised: 3/2/10

Administrative Regulation No. 1250, VISITORS/OUTSIDERS/Visits to the Classroom

The Superintendent or designee shall post at every entrance to each school and school grounds a notice setting forth visitor registration requirements, hours during which registration is required, the registration location, the route to take to that location, and the penalties for violation of registration requirements.

Unless otherwise directed by the principal or designee, a staff member shall accompany visitors while they are on school grounds.

In order to register, visitors shall, upon request, furnish the principal or designee with the following information.

The principal or designee or school security officer may revoke an outsider's registration if he/she has a reasonable basis for concluding that the outsider's presence on school grounds would interfere or is interfering with the peaceful conduct of school activities or would disrupt or is disrupting the school, students or staff.
2. The principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or revoked, promptly leave school grounds. When an outsider is directed to leave, the principal or designee shall inform the outsider that if he/she reenters the school within seven days he/she will be guilty of a misdemeanor subject to a fine and/or imprisonment.

Type 2 Diabetes Information

Pursuant to California Education Code Section 49452.7, this type 2 diabetes information is for local educational agencies to provide to parents and guardians of incoming seventh grade students beginning July 1, 2010.

The California Department of Education developed this type 2 diabetes information in collaboration with the California Department of Public Health, American Diabetes Association, California School Nurses Organization, and Children's Hospital of Orange County. Also see available translations of this information.

Description

Type 2 diabetes is the most common form of diabetes in adults.

- Until a few years ago, type 2 diabetes was rare in children, but it is becoming more common, especially for overweight teens.
- According to the U.S. Centers for Disease Control and Prevention (CDC), one in three American children born after 2000 will develop type 2 diabetes in his or her lifetime.

Type 2 diabetes affects the way the body is able to use sugar (glucose) for energy.

- The body turns the carbohydrates in food into glucose, the basic fuel for the body's cells.
- The pancreas makes insulin, a hormone that moves glucose from the blood to the cells.
- In type 2 diabetes, the body's cells resist the effects of insulin, and blood glucose levels rise.
- Over time, glucose reaches dangerously high levels in the blood, which is called hyperglycemia.
- Hyperglycemia can lead to health problems like heart disease, blindness, and kidney failure.

Risk Factors Associated with Type 2 Diabetes

It is recommended that students displaying or possibly experiencing the risk factors and warning signs associated with type 2 diabetes be screened (tested) for the disease.

Risk Factors

Researchers do not completely understand why some people develop type 2 diabetes and others do not; however, the following risk factors are associated with an increased risk of type 2 diabetes in children:

- Being overweight. The single greatest risk factor for type 2 diabetes in children is excess weight. In the U.S., almost one out of every five children is overweight. The chances are more than double that an overweight child will develop diabetes.
- Family history of diabetes. Many affected children and youth have at least one parent with diabetes or have a significant family history of the disease.
- Inactivity. Being inactive further reduces the body's ability to respond to insulin.
- Specific racial/ethnic groups. Native Americans, African Americans, Hispanics/Latinos, or Asian/Pacific Islanders are more prone than other ethnic groups to develop type 2 diabetes.
- Puberty. Young people in puberty are more likely to develop type 2 diabetes than younger children, probably because of normal rises in hormone levels that can cause insulin resistance during this stage of rapid growth and physical development.

Warning Signs and Symptoms Associated with Type 2 Diabetes

Warning signs and symptoms of type 2 diabetes in children develop slowly, and initially there may be no symptoms. However, not everyone with insulin resistance or type 2 diabetes develops these warning signs, and not everyone who has these symptoms necessarily has type 2 diabetes.

- Increased hunger, even after eating
- Unexplained weight loss
- Increased thirst, dry mouth, and frequent urination
- Feeling very tired
- Blurred vision
- Slow healing of sores or cuts
- Dark velvety or ridged patches of skin, especially on the back of the neck or under the arms
- Irregular periods, no periods, and/or excess facial and body hair growth in girls
- High blood pressure or abnormal blood fats levels

Type 2 Diabetes Prevention Methods and Treatments

Healthy lifestyle choices can help prevent and treat type 2 diabetes. Even with a family history of diabetes, eating healthy foods in the correct amounts and exercising regularly can help children achieve or maintain a normal weight and normal blood glucose levels.

- Eat healthy foods. Make wise food choices. Eat foods low in fat and calories.

- Get more physical activity. Increase physical activity to at least 60 minutes every day.
- Take medication. If diet and exercise are not enough to control the disease, it may be necessary to treat type 2 diabetes with medication.

The first step in treating type 2 diabetes is to visit a doctor. A doctor can determine if a child is overweight based on the child's age, weight, and height. A doctor can also request tests of a child's blood glucose to see if the child has diabetes or pre-diabetes (a condition which may lead to type 2 diabetes).

Types of Diabetes Screening Tests That Are Available

- Glycated hemoglobin (A1C) test. A blood test measures the average blood sugar level over two to three months. An A1C level of 6.5 percent or higher on two separate tests indicates diabetes.
- Random (non-fasting) blood sugar test. A blood sample is taken at a random time. A random blood sugar level of 200 milligrams per deciliter (mg/dL) or higher suggests diabetes. This test must be confirmed with a fasting blood glucose test.
- Fasting blood sugar test. A blood sample is taken after an overnight fast. A fasting blood sugar level less than 100 mg/dL is normal. A level of 100 to 125 mg/dL is considered pre-diabetes. A level of 126 mg/dL or higher on two separate tests indicates diabetes.
- Oral glucose tolerance test. A test measuring the fasting blood sugar level after an overnight fast with periodic testing for the next several hours after drinking a sugary liquid. A reading of more than 200 mg/dL after two hours indicates diabetes.

Type 2 diabetes in children is a preventable/treatable disease and the guidance provided in this information sheet is intended to raise awareness about this disease. Contact your student's school nurse, school administrator, or health care provider if you have questions.

Notice to Parents/Guardians: EDUCATIONAL RIGHTS

Your Child has the Right to a Free Public Education

- All children in the United States have a Constitutional right to equal access to free public education, regardless of immigration status and regardless of the immigration status of the students’ parents or guardians.
- In California:
- All children have the right to a free public education.
- All children ages 6 to 18 years must be enrolled in school.
- All students have a right to attend safe, secure, and peaceful schools.
- All students and staff have the right to be in a public school learning environment free from discrimination, harassment, bullying, violence, and intimidation.
- All students have equal opportunity to participate in any program or activity offered by the school, and cannot be discriminated against based on their race, nationality, gender, religion, or immigration status, among other characteristics.

Information Required for School Enrollment

- When enrolling a child, schools must accept a variety of documents from the student’s parent or guardian to demonstrate proof of child’s age or residency.
- You never have to provide information about citizenship/immigration status to have your child enrolled in school. Also, you never have to provide a Social Security number to have your child enrolled in school.

Confidentiality of Personal Information

- Federal and state laws protect student education records and personal information. These laws generally require that schools get written consent from parents or guardians before releasing student information, unless the release of information is for educational purposes, is already public, or is in response to a court order or subpoena.
- Some schools collect and provide publicly basic student “directory information.” If they do, then each year, your child’s school district must provide parents/guardians with written notice of the school’s directory information policy, and let you know of your option to refuse release of your child’s information in the directory.

Right to File a Complaint

- Your child has the right to report a hate crime or file a complaint to the school district if he or she is discriminated against, harassed, intimidated, or bullied on the basis of his or her actual or perceived nationality, ethnicity, or immigration status.

English Learner Programs (EC 310):

Structured English Immersion (SEI) is the state-recommended mandated program for English learners and designed for students with less than “reasonable fluency”. It is defined as an English acquisition process in which nearly all classroom instruction is in English but with the curriculum and presentation designed for children who are learning the language (CA. Ed. Code Section 300). Students who are at the early stages of English proficiency (ELPAC overall 1 or 2) receive the content curricula overwhelmingly in English. Some assistance may be provided in the primary language. Students are taught English Language Development (ELD) and other core subjects taught by authorized teachers using District-adopted textbooks and supplementary materials. Instruction is based on ELD standards and grade-level content standards. This program is designed to ensure that students gain reasonable fluency in English while at the same time mastering grade level academic content. Once students reach reasonable fluency (ELPAC overall 3 or 4) they may then be placed in a mainstream program.

English learners who have attained reasonable fluency or a “good working knowledge” of English are placed in an **English Mainstream Program (ELM)**. This program is available to students at all proficiency levels. An English Learner shall be transferred from an SEI program to an English Mainstream program when the child has acquired a reasonable level of English proficiency (Ed. Code 305). However, a parent or guardian may have his or her child moved into an English Language Mainstream program at any time, including during the school year (California Code of Regulations [CCR], Title 5, section 11301). The program is designed to continue the development of English, through ELD instruction while providing content instruction in English. Students are taught ELD and other core subjects by authorized teachers using District-adopted textbooks and supplementary materials. Instruction is based on ELD standards and grade-level content standards. Specially Designed Academic Instruction in English (SDAIE) is a major feature of this program. Mainstreamed English learners require careful monitoring and attention to their progress towards reclassification.
