GOLDEN VIEW ELEMENTARY SCHOOL TO LAUNCH ENVIRONMENTAL SCIENCE PROGRAM IN FALL 2018, HOSTS INFORMATION NIGHT ON FEBRUARY 15

February 7, 2018 (Huntington Beach, CA)—The Ocean View School District’s Golden View Elementary School is hosting an Environmental Science Information Night for all interested families, parents and children in our communities, including Huntington Beach, Westminster, Fountain Valley, and nearby areas. The new program, launching in fall 2018, will include a rigorous curriculum combined with the study of environmental science (biology, chemistry, ecology, physics, and geology). This innovative program will maximize use of Golden View’s unique, two-and-a-half acre farm and garden.

You’re invited!

When: 6 p.m. on February 15, Environmental Science Information Night
Parents and children interested in exploring this exciting new program for the 2018-2019 school year will learn about the program and participate in “minds-on” activities, such as garden taste testing, caring for living creatures, and farm visioning.

Where: Golden View Elementary School
17251 Golden View Lane
Huntington Beach, CA
