Oak View Gym/ Multipurpose Room Construction Update; Board Approves Resolution Authorizing Bond Issuance

Oak View Gym/Multipurpose Room Construction: Update to the Board

Deputy Superintendent Michael Conroy provided an update to the Board of Trustees on developments in the Oak View gym/multipurpose room construction project being underwritten by Rainbow Environmental Services. Dr. Conroy shared that the District is early in the process and outlined the timeline for the construction project. It is anticipated that the entire project will be completed by the end of the 2018-2019 school year. Dr. Conroy stated that the document approval process with the Department of State Architect (DSA) will likely be the longest period, since state approvals are currently delayed by up to three months. He then shared conceptual, digital drawings of the proposed structure (*example shown right*), which could include space for an interior athletic court, stage, bleachers that could be retracted in inclement weather for increased capacity, and an outdoor courtyard space for lunch tables and events, as well as a sheltered outdoor lunch space for students. It was emphasized that the digital representations are only conceptual at this time, and that the District is still gathering input as it develops these drawings with the project architect. This construction update was shared with Oak View families and staff. To see the presentation and additional conceptual renderings, [link here!](#)

Board Approves Resolution Authorizing Issuance of OVSD General Obligation Bonds

In an action furthering the process of District bond projects after the successful passage of Measure R, a \$169M general obligation bond election in November 2016, the Board approved a resolution authorizing the issuance of Ocean View School District election of 2016 general obligation bonds, Series A. The agenda item was presented by a representative from the District's financial advisor, Fieldman, Rolapp & Associates, Inc. With its passage, the formal process for issuing the first series of bonds in an aggregate principal amount not to exceed \$45M begins. Additionally, the Board formally approved the agreements for architectural services and construction management services for future Measure R bond facilities projects.
