Board Approves Expansion of ST Math Program to Golden View, Harbour View; Students Spotlight Robotics (Lake View), Anchors Program (Marine View)

Photo (above): Lake View STEAM School robotics team members demonstrated a variety of programming and technical skills at last night's Board meeting. It was an interactive, impressive presentation enjoyed by all. Thank you to Principal Jamie Goodwyn and her robotics teaching team for helping to guide these future engineers. **The OVSD Robotics Competition** will be held June 10 from 8 a.m. to 1 p.m. at Mesa View Middle School. Several OVSD elementary schools, including Lake View, and middle schools will bring their teams to compete in a variety of robotics activities, along with volunteers from the Ocean View High School Team 4619 Hawkbots!

Photo (right): Marine View Middle School students in the Anchors Program presented information about the school program and the "Walk In My Shoes" conference they recently attended. With the goal of helping to create a more positive, caring environment on the Marine View campus, the Anchors provide a room that serves as a haven for students to visit during lunch on Wednesdays and Fridays, where they are invited to make new friends, play games and trivia, get creative, and participate in activities that vary monthly.

Foundational Math Program, ST Math, Approved for Golden and Harbour View Schools

The Board of Trustees approved the purchase of two new licence agreements for ST Math software, a supplementary math program, at Golden View and Harbour View Elementary Schools. With last night's Board approval, all Ocean View elementary schools will now use the ST Math visual program, which is based on applied neuroscience research and uses visual animations and game-based learning to build conceptual understanding and motivate students to higher achievement. ST Math activities are accessible to all students and provide differentiated instruction for individual students. [Read more about the ST Math program](#). Funding will be provided through Block Grant, site donations, and Title I.
